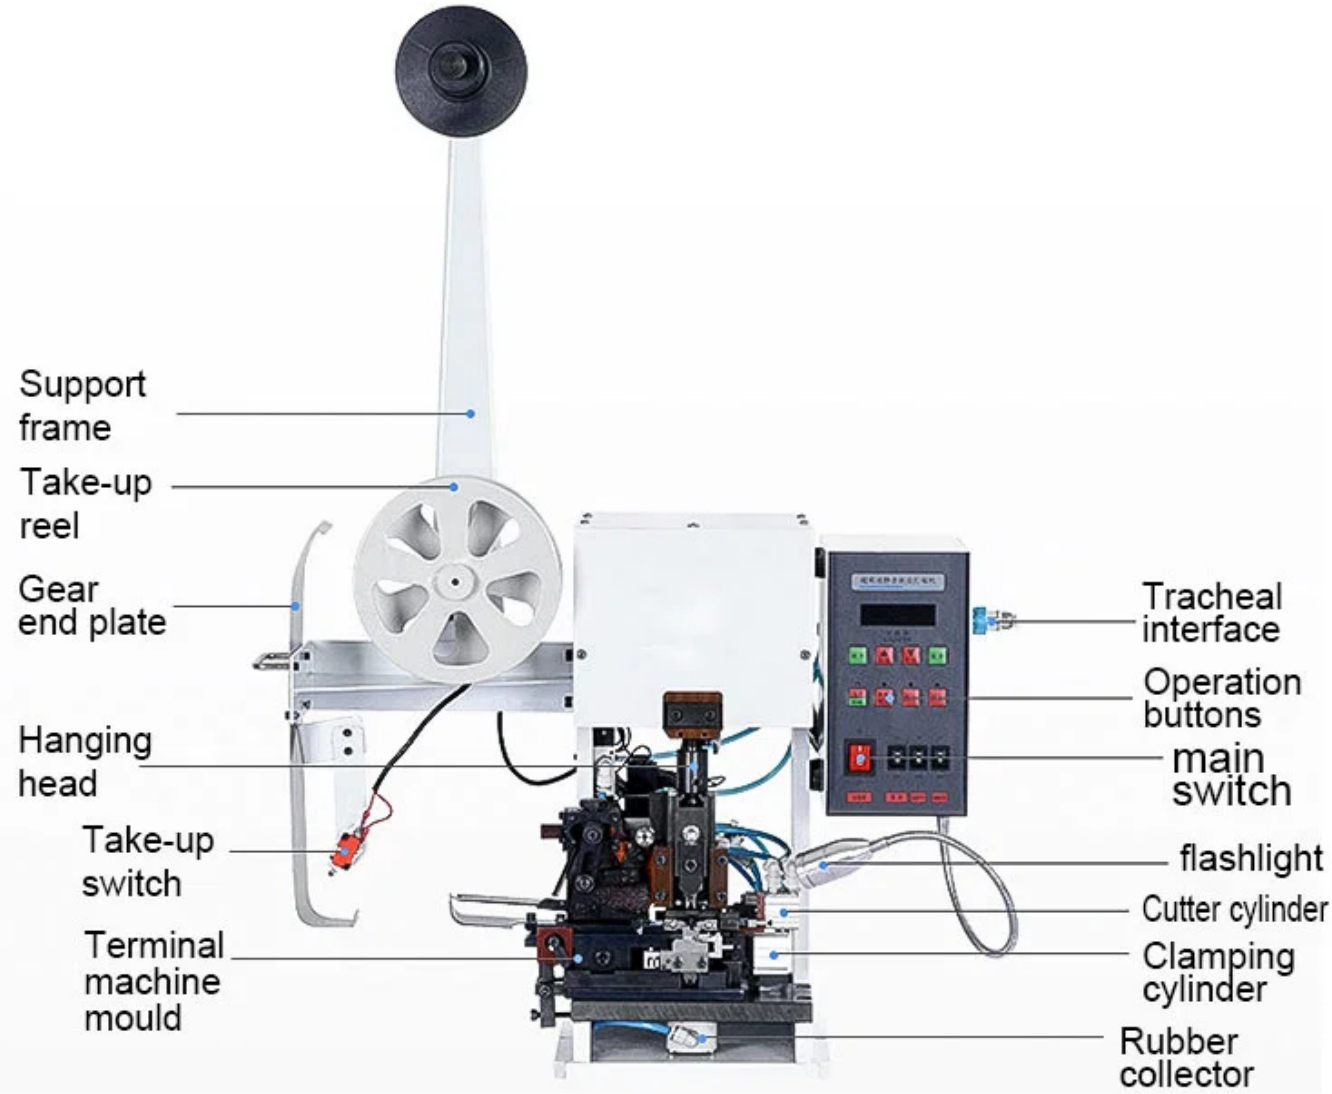
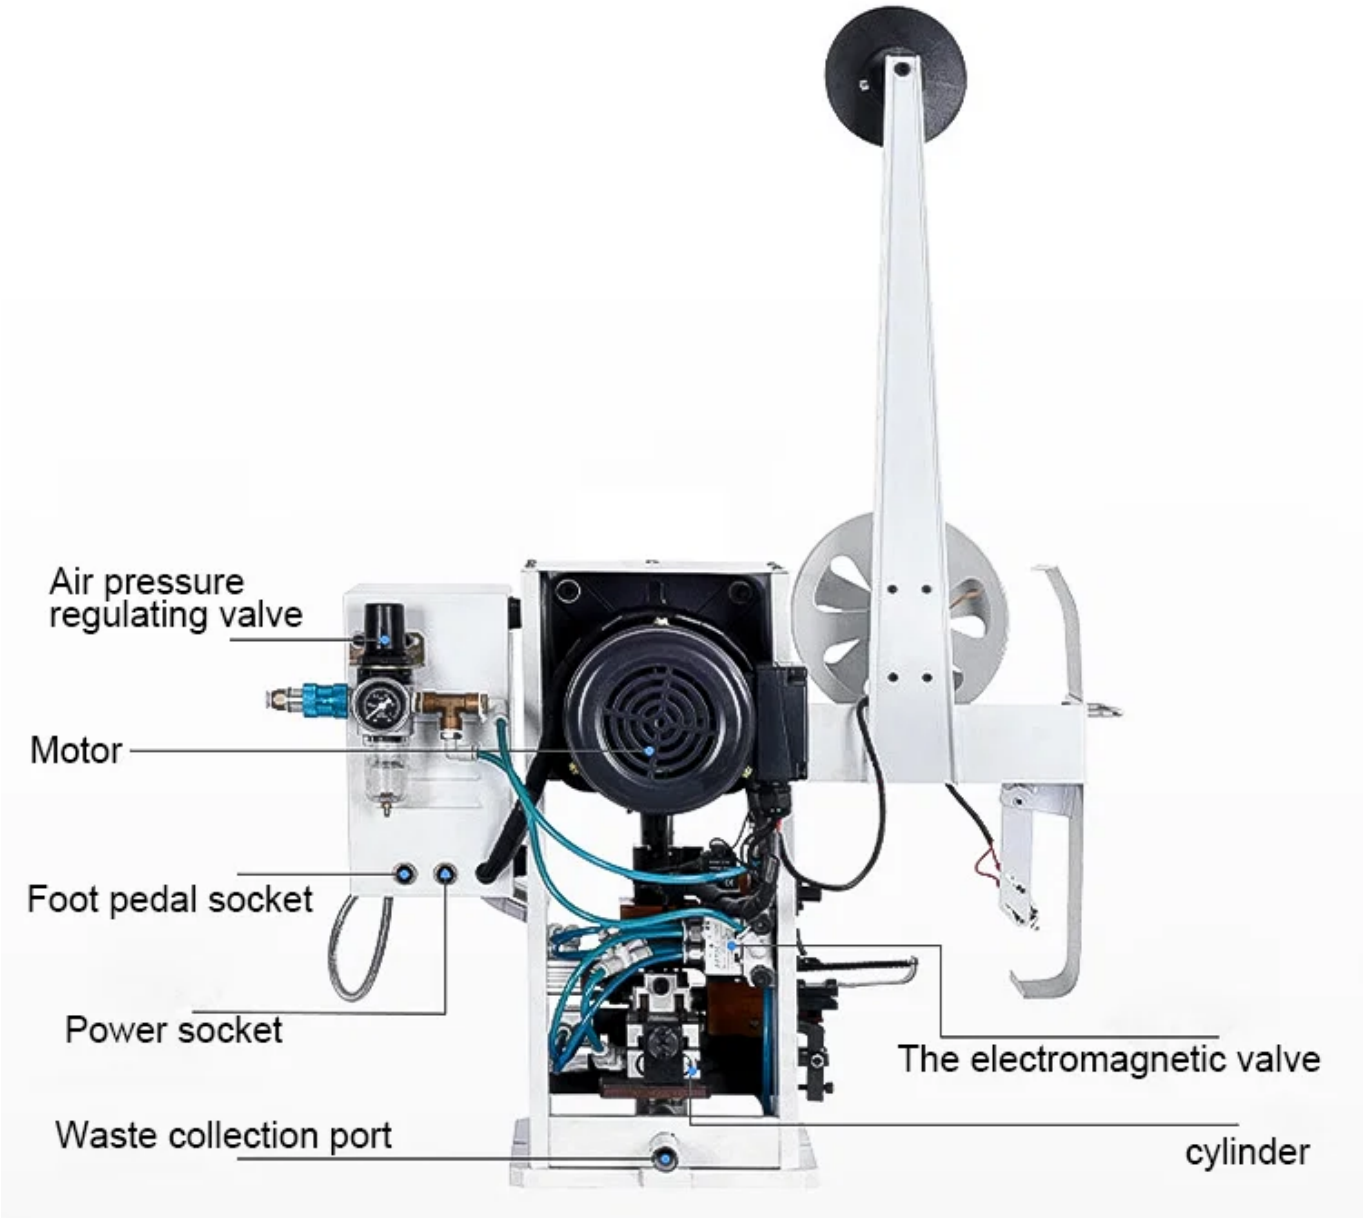
CORRUGATED
PACKAGING
973050-2
PRODUCT ID
830mm
530mm
400mm

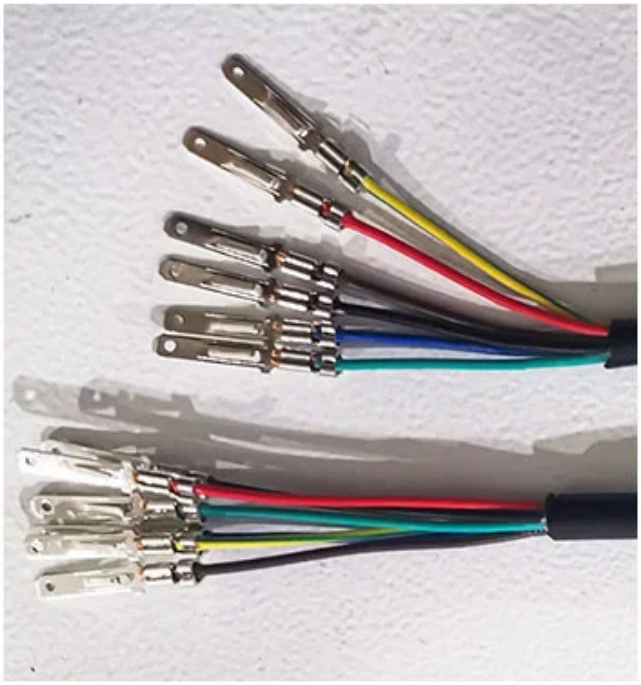


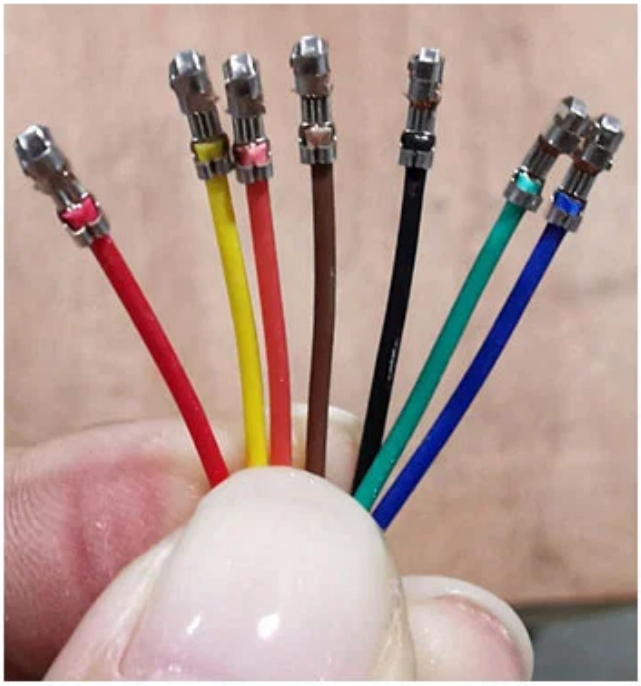
Support frame
Take-up reel
Gear end plate
Hanging head
Take-up switch
Terminal machine mould
Tracheal interface
Operation buttons
main switch
flashlight
Cutter cylinder
Clamping cylinder
Rubber collector

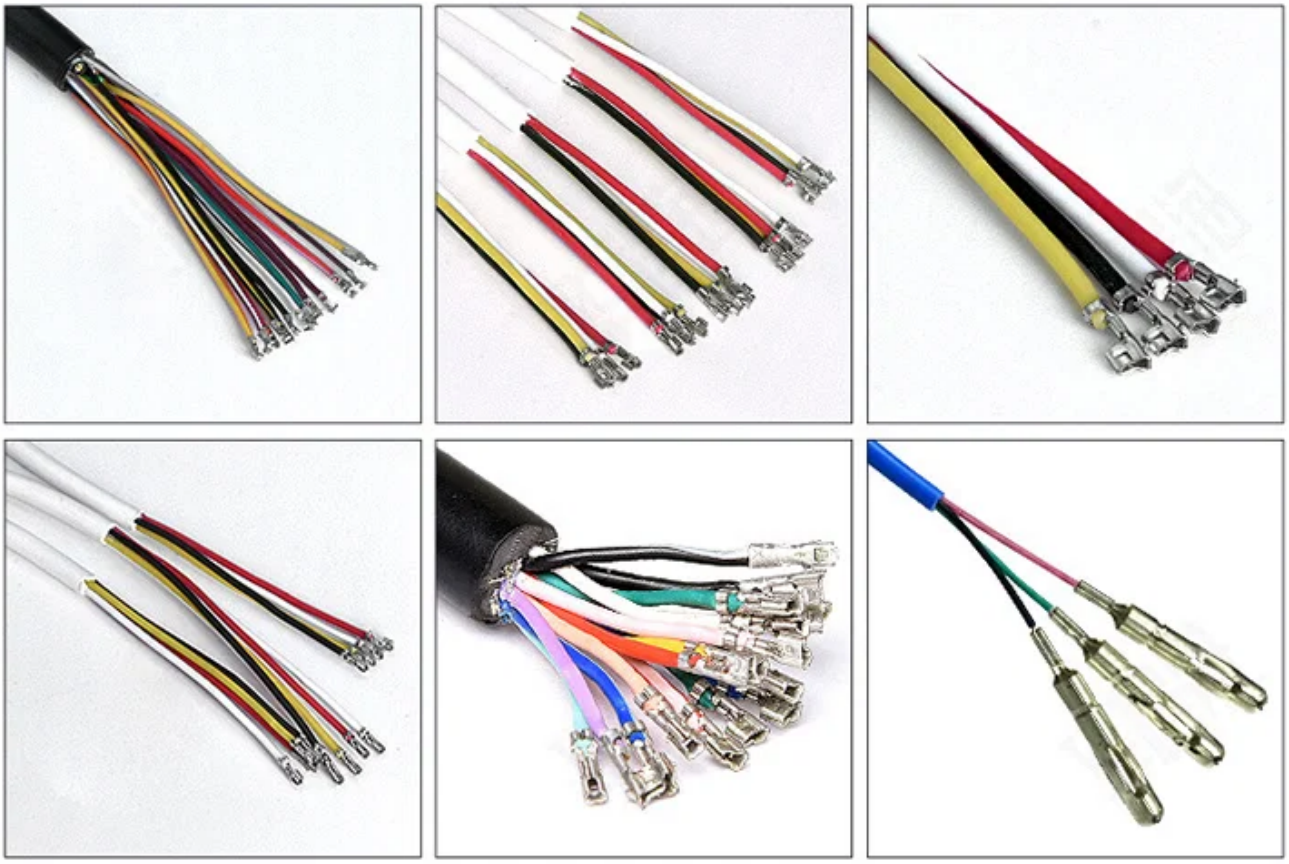


Air pressure regulating valve
Motor
Foot pedal socket
Power socket
Waste collection port
The electromagnetic valve
cylinder

Applicable terminals: DC terminals, AC terminals, single-grain terminals, connected terminals, and other horizontal strip terminals
Applicable wire: electronic single wire, multi-core wire, flat cable, computer core wire, USB data cable, earphone cable, audio cable, etc.





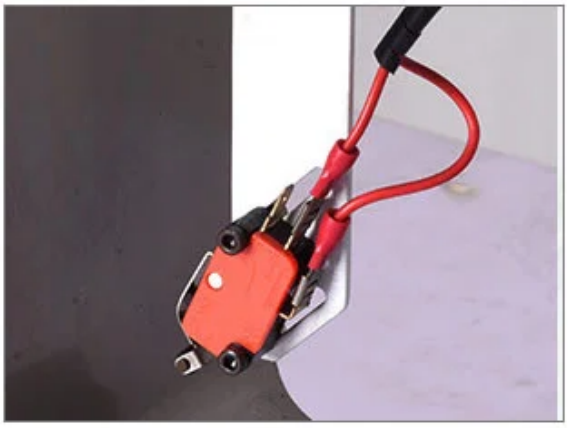


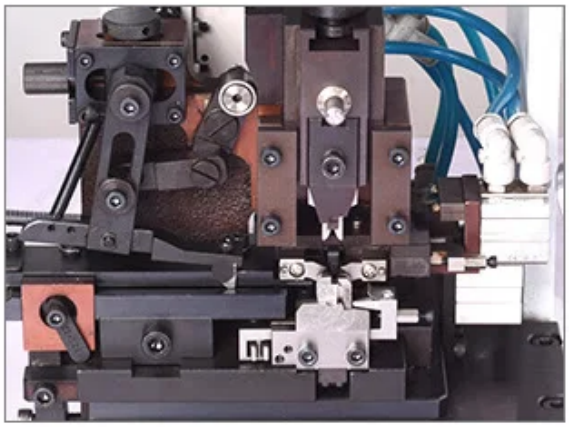
Operation panel

LED display, Chinese panel, simple operation, sturdy and durable, fast response, with counting function

Tact switch

When the tape feeding reaches a certain level, touch the paper take-up switch to facilitate automatic paper take-up and auxiliary feeding





Horizontal feed terminal mould

The blade replacement is convenient and easy to adjust, the peeling depth can be adjusted, the pressing end has high precision and fast speed

LED lighting

Equipped with high-quality LED lights, low energy consumption, soft light without glare, can be adjusted at any angle, debugging equipment more convenient
