- **Automatic Stripping for Effortless Label Delivery:** Experience truly effortless label dispensing. The 1150D **automatically strips labels from their backing paper**. As soon as one label is taken, the next label is instantly presented, ready for application. This automated process is fast, efficient, and reduces operator fatigue, especially during long production runs. This **automatic label stripping machine** streamlines the entire labeling process.
- **Integrated LCD Counter for Production Monitoring:** Keep track of your labeling output with the built-in **LCD counter**. This convenient counter displays the exact number of labels dispensed, allowing for accurate production monitoring, inventory management, and job costing. The **counter-type** display provides valuable data for production tracking and efficiency analysis.
- **Tool-Free Adjustments and Minimal Maintenance:** Adapt to different label sizes quickly and easily without the need for any tools. Adjustments for various label widths and lengths are simple and straightforward, maximizing flexibility and minimizing downtime. The robust and reliable design of the 1150D also ensures minimal maintenance requirements, keeping your operations running smoothly. This **label stripping machine** is designed for ease of use and minimal upkeep.
- **Versatile Compatibility for a Wide Range of Labels and Applications:** The 1150D is compatible with a wide variety of self-adhesive labels, making it a versatile solution for diverse applications. It is suitable for dispensing:
  - **Self-adhesive labels:** Standard paper and film labels.
  - **Barcodes:** For product identification and tracking.
  - **Security labels:** For tamper-evident packaging and product authentication.
  - **Laser and bronzing stickers:** For decorative and premium labeling.
  - **Packaging trademarks:** For branding and product identification.
  - **Insulation material pads:** For electronic component assembly.
  - **Toy stickers:** For toy manufacturing and packaging.
  - **Production date labels:** For food and beverage industries, and manufacturing traceability.
  - **Printed patterns:** For decorative and informational labels.

	Counter-type
Suitable Label Width	Standard 6 - 140mm
Suitable Label Length	4 - 200mm (adjust freely)
Label Peeling Speed	250 cm/min
Max. OD of Roll	250mm
Inner of Roller	⩾25mm
	AC 110V/220V 50Hz/60Hz

Measurement (L x W x H)	L210×W210×H220(mm)
Net Weight	4.5Kg/pcs
Gross Weight	5.0Kg/pcs

Applications:

The 1150D Automatic Label Stripping Machine is an ideal solution for a wide range of industries and applications, including:

- **Manufacturing:** Streamlining labeling processes in production lines for various products.
- **Packaging:** Enhancing efficiency in packaging operations for e-commerce, retail, and industrial goods.
- **Electronics Assembly:** Precise dispensing of labels and insulation pads for electronic components.
- **Food and Beverage:** Efficiently applying date codes and product labels in food processing and packaging.
- **Pharmaceuticals:** Accurate and clean labeling for pharmaceutical products, ensuring compliance and traceability.
- **Cosmetics and Personal Care:** Enhancing the presentation of cosmetic and personal care products with pristine labels.
- **Logistics and Warehousing:** Speeding up labeling for shipping and inventory management.

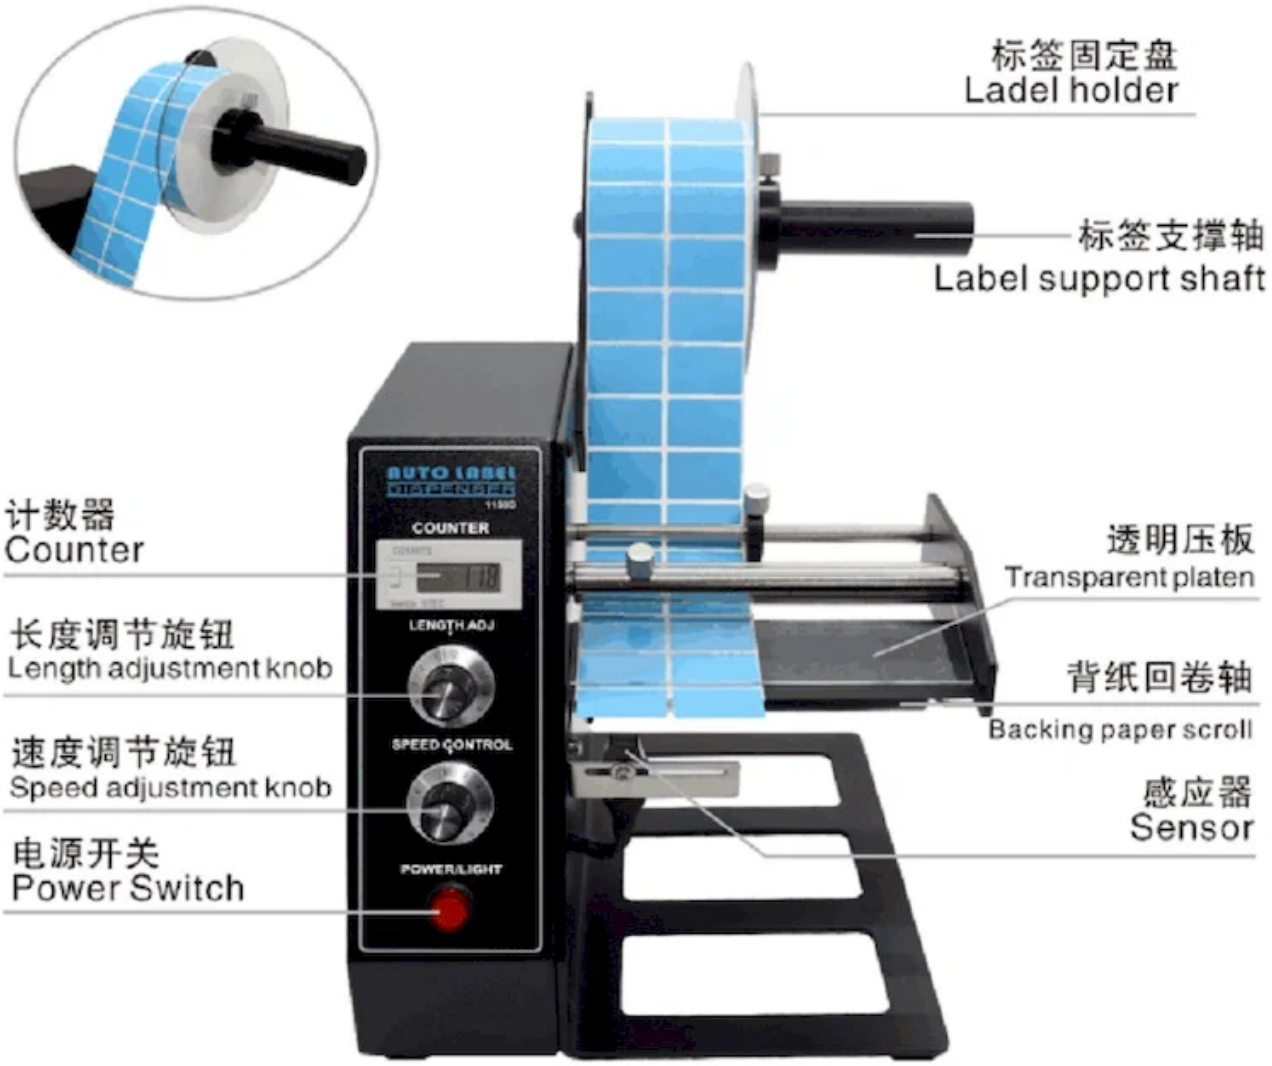

Conclusion:

The **1150D Automatic Label Stripping Machine** is a smart investment for any business looking to improve labeling efficiency, enhance product quality, and reduce operational costs. Its combination of speed, precision, user-friendliness, and versatility makes it an indispensable tool for streamlining your labeling process and achieving superior results. Upgrade your labeling operations today with the 1150D and experience the difference.
