Power	1/4HP	1/4HP	1/4HP

Microcomputer pipe cutting machine

Suitable for all materials (such as: copper sheet, copper foil, aluminum sheet, iron wire, cable, wire)
Synchronous cutting of multiple high-speed steel knives, simple button panel operation, precision control up to 0.1mm

Good helper for tube cutting and slicing

Accuracy control up to 0.1mm

Cut long, short, soft and hard

Synchronous cutting of multiple roots, using high-speed steel knife to cut

High-speed feeding

Adjustable speed

LCD display

Precision

Features

*High-speed feeding, the computerized pipe cutting machine is controlled by a microcomputer program with an accuracy of 0.1mm

*Adjustable cutting speed, full Chinese LCD display

* Length and speed can be adjusted continuously

*Automatic group accumulation and total accumulation count

*Batch pause and delay time can be set

*Automatic shutdown when lack of material

*It can automatically cut all kinds of tubular and ribbon materials;

*High-speed stepping motor controls the cutting length; the length and speed of the tape are adjustable;

*Cutter time protection; total number setting; splitting setting; splitting pause time adjustable;

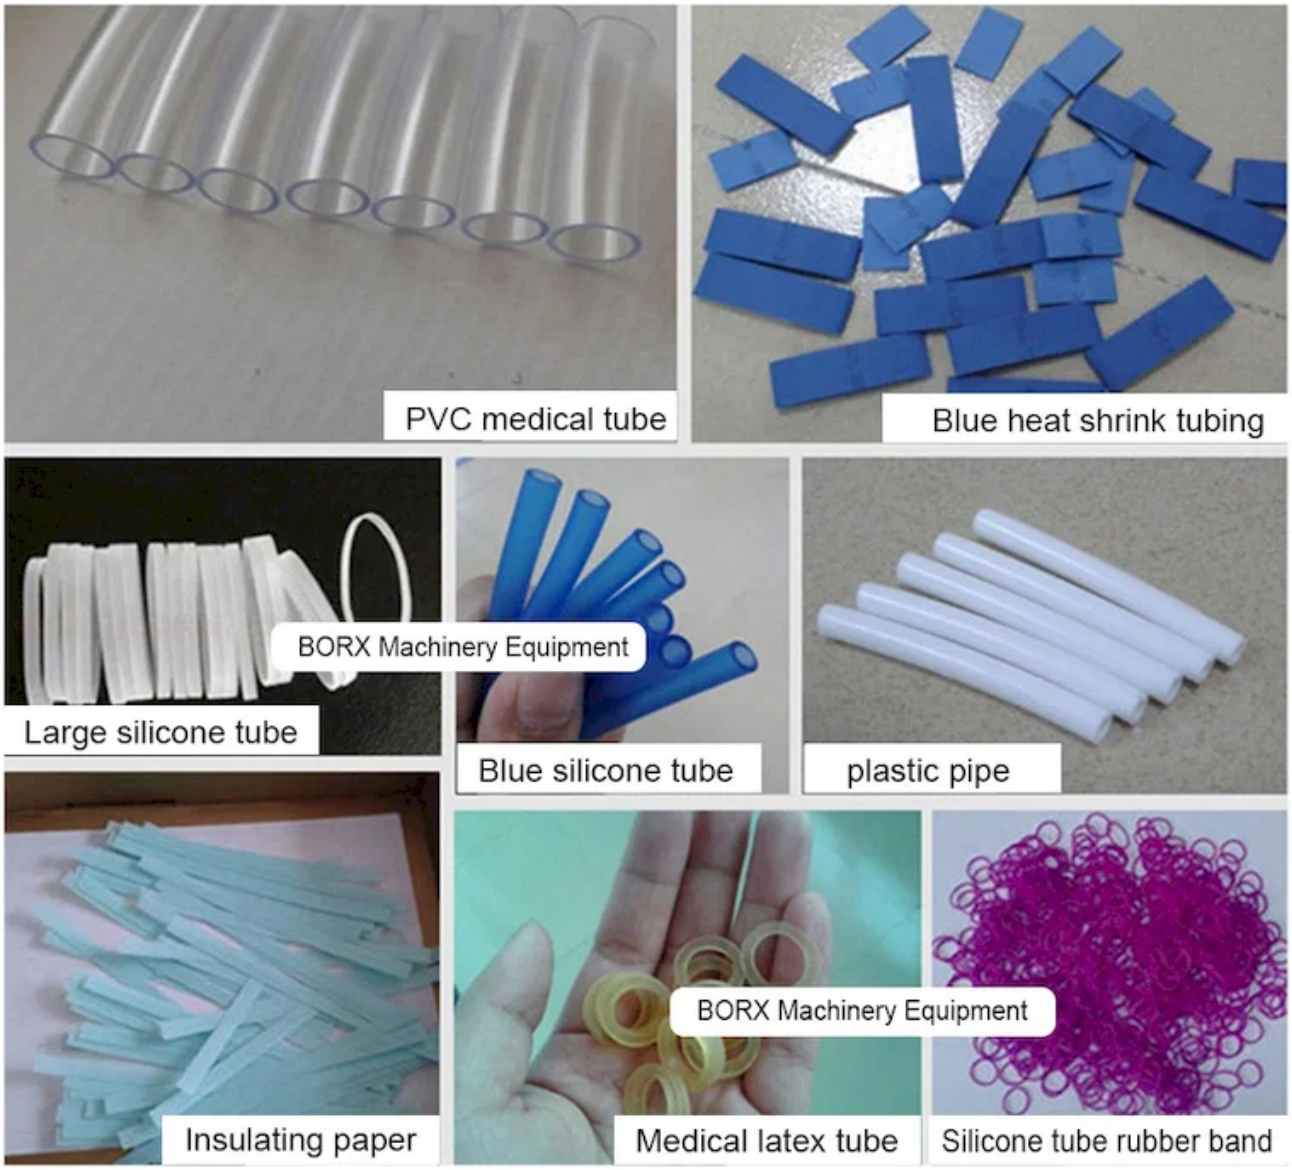

* Various manual operations are available for easy debugging;

*Computerized pipe cutting machine LCD large screen intuitive Chinese display, simple and convenient operation; English version display can also be customized

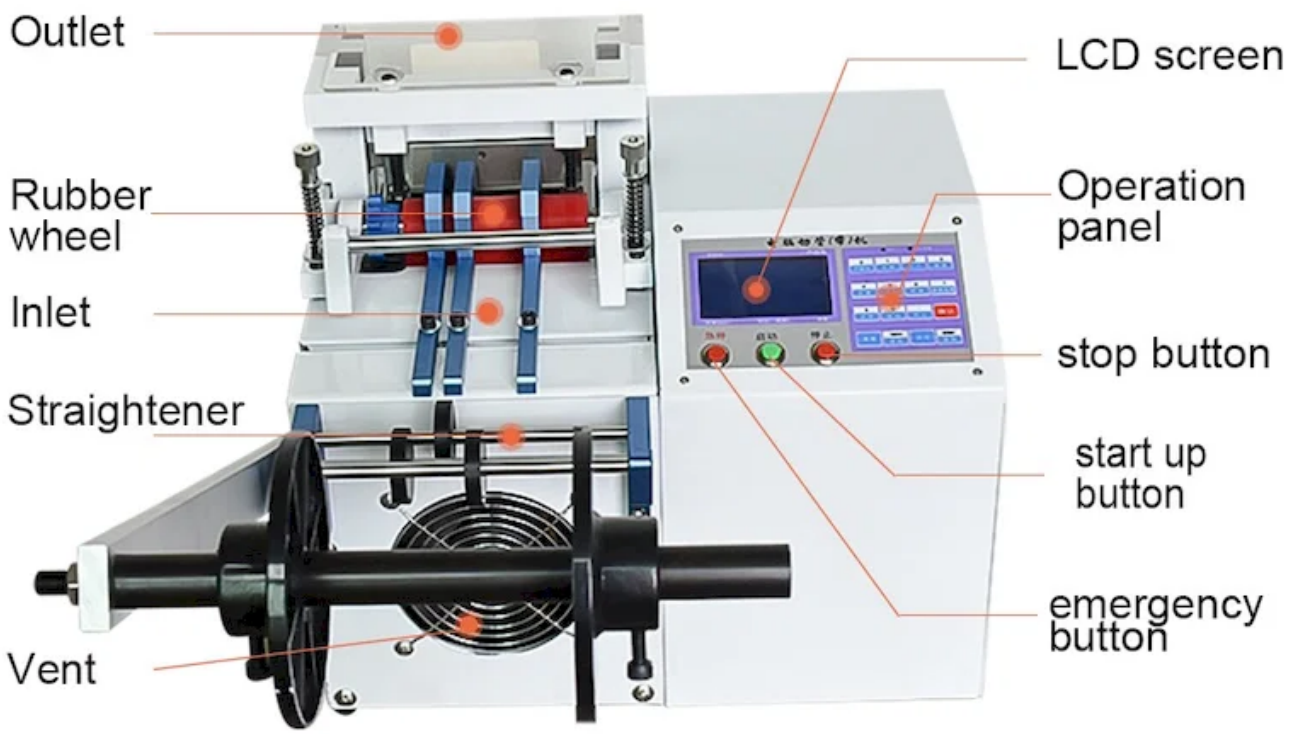

*Using a special mechanical structure and special tools, coupled with special software control, to solve the problem of uneven cuts of other manufacturers' silicone tubes. Achieve flat incision and accurate length

Processing sample display

This computerized pipe cutting machine is suitable for heat shrinkable tubing, silicone tubing, Teflon tubing, fiberglass tubing, PVC tubing, PE tubing, silicone tubing, oil resistant tubing, railway tubing, braided mesh tubing, fluoroplastic tubing, anticorrosive tubing, yellow Green tube, pattern tube, medium and thick wall sheath, double wall tube, marking tube, electrolytic capacitor PVC sleeve, PVC plastic tape, flat cable, cable tie line, plastic hose, insulating paper, copper foil, copper sheet, double Surface glue, PE film bag, leather, non-woven fabric, acetate cloth, rubber pad, cotton gauze belt, seat belt, elastic belt, colored belt, track belt, plastic belt, hook and loop belt, battery separator, nickel sheet, diffuser sheet, reflective film , Conductive cloth/foam, PET, Velcro, zipper and other strip or tube shape cut to length

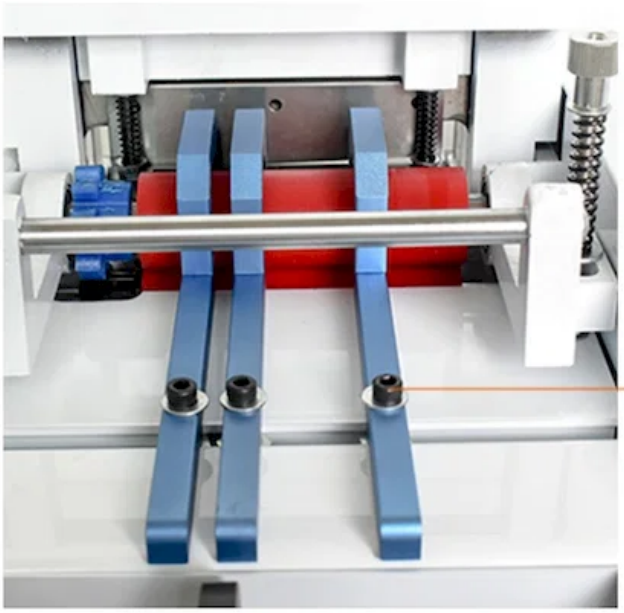

PVC medical tube
Blue heat shrink tubing
BORX Machinery Equipment
Large silicone tube
Blue silicone tube
plastic pipe
Insulating paper
BORX Machinery Equipment
Medical latex tube
Silicone tube rubber band

Product parameters

Cutting length: 1-9999.9mm
Cutting width: 1-100mm 1-120mm 0-160mm 0-200mm (wider can be customized)
Cutting speed: 100-120 times/min
Storage specifications: 100
Accuracy: ±0.1mm (depending on material)
Power supply voltage: 220v
Power: 60v
Weight: 30KG
Volume: L400*W300*H430 mm

Product parameters

Adjustable width feed opening

Two pipes can be fed at the same time, double the efficiency

Fixing screw

Loosen the fixing screws to adjust the width of the incoming material according to the size of the cut material

control panel

Microcomputer control panel, easy to understand

LCD

Self-luminous display, the display content is clear and reasonable, at a glance, all Chinese keys, the operation is simpler, no professional operation is required

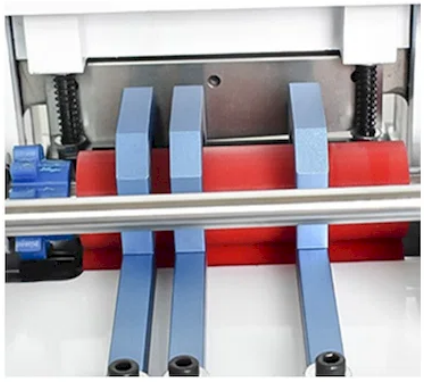

Stainless steel cutter

White steel cutter, sharper, longer service life, cutting without burrs, smooth and beautiful cut

Feed rubber wheel

Rubber wheel, long life, high precision, high feeding accuracy, 0.1mm controllable high precision controller and rubber wheel combination

Cooling fan

Ultra-quiet cooling fan, fast heat dissipation without noise

Outlet

The lower slope design of the discharge port makes the discharge more smooth
