[illegible]WPM-0525

Model No. WPM-0525

SPECIFICATIONS

Model Number	WPM-0525
[illegible]	560 * 500 * 300 [illegible]
[illegible]	21 [illegible]
[illegible]	0.01 [illegible]- 10 [illegible]
[illegible]	(0.1-0.2) [illegible]
[illegible]	0.5-2.5 [illegible]
[illegible]	[illegible]
[illegible]	[illegible]
[illegible]	280W
[illegible]	AC220V / 380V

[illegible] [illegible]All-in-One [illegible]

[illegible]	AC220V / 380V ([illegible]
[illegible]	[illegible]Dual-End [illegible]
Control Interface	Touch-Operated Computer Screen
Drive System	High-Efficiency Step Drive
Applicable Materials	PVC, Teflon, Silicone Gel, Glass Fiber, etc.
Industries Applicable	Electronics, Household Appliances, Electrical Motors, Lamps, Toys

Applications:

The Patent Owner Copper **Magnet Wire Cutting and Stripping Machine** is widely used across various industries requiring precision magnet wire processing, including:

- **Electronics Industry:** Preparing magnet wires for coils, inductors, transformers, and other electronic components.
- **Household Appliance Manufacturing:** Processing magnet wires for motors, transformers, and wiring in appliances.
- **Electric Motor Manufacturing:** Preparing magnet wires for stator and rotor windings in electric motors.
- **Lighting Industry:** Processing magnet wires for ballasts and transformers in lamps and lighting fixtures.

- **Toy Manufacturing:** Preparing magnet wires for motors and electromagnetic components in toys.
- **Any application requiring precise cutting, stripping, and enamel removal from magnet wire.**

Conclusion:

Invest in the Patent Owner Copper **Magnet Wire Cutting and Stripping Machine** and experience a significant improvement in your magnet wire processing efficiency, precision, and product quality. This versatile and user-friendly machine is designed to streamline your operations, reduce labor costs, and deliver consistently superior results. Contact us today to learn more and request a personalized quote to revolutionize your magnet wire processing workflow!
