Splitting and twisting machine
This machine is easy to use and simple to operate.
It can tighten all kinds of ground wires, braided
network wires and isolation wires, completely
replacing manual work.
分线扭线机
FXNXJ-003

Brush shielded wire splitting and twisting machine

One machine with multiple functions, saving time and labor and labor

The automatic gripper adopts an exposed design, so that the scattered copper wires are also easily placed

Elastic clamping **Smooth twisting** **easy to use** **Stable quality**

Featrues

1. The automatic gripper adopts an exposed design, so that the scattered copper wires are also easily placed.

2. Elastic clamping, no need to adjust when the wire diameter is different.

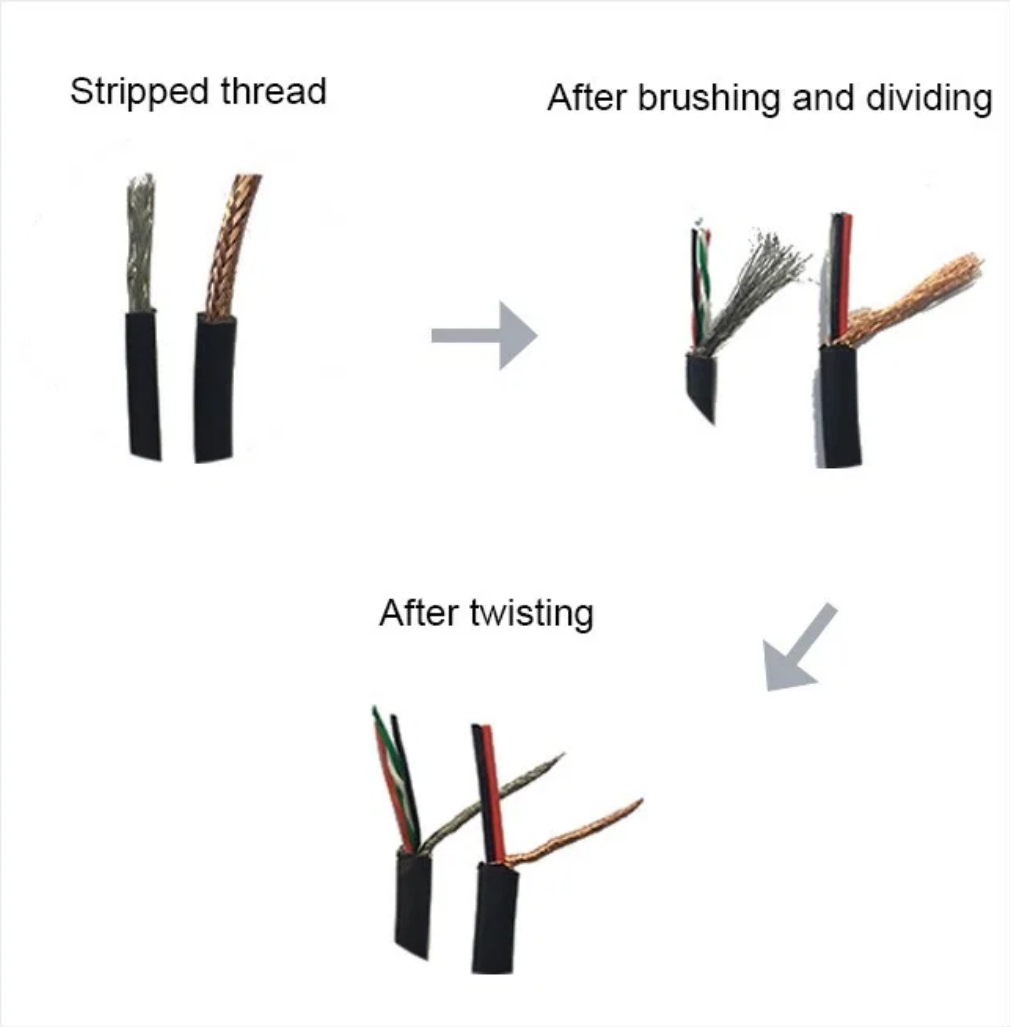

3. This model is an upgraded version of the gas-electric twisting machine.

4. Newly-added automatic wire drawing device, simple operation, smooth wire twisting, more stable quality, especially for novices can quickly adapt to work.

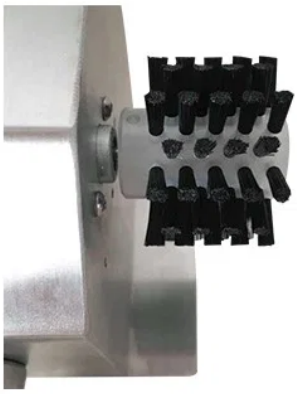

Processing sample display

The machine is easy to use and simple to operate. It can split all kinds of braided wires, shielded wires, cable wires, twisted wires... and twisted wires to completely replace manual work.

Product detials

Wear-resistant brush line dividing brush

Higher hardness, stronger corrosion resistance, saving time and effort

Exterior design

The automatic gripper adopts an exposed design, so that the scattered copper wires are also easily placed.

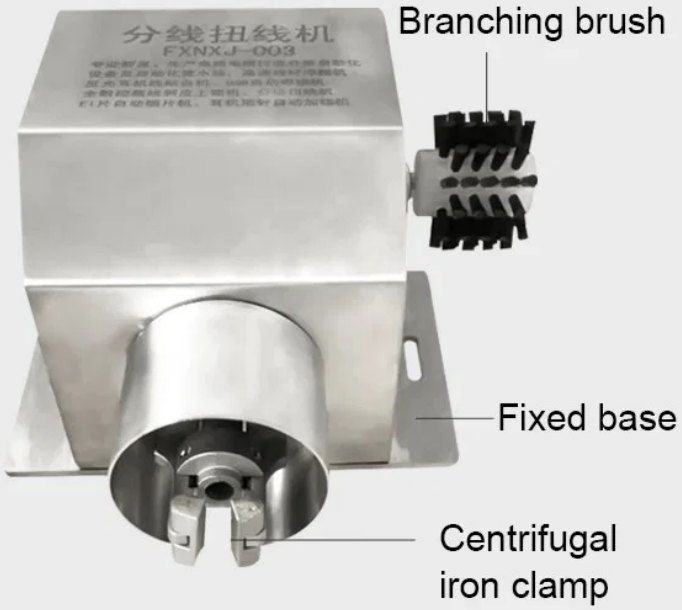

Centrifugal iron clamp

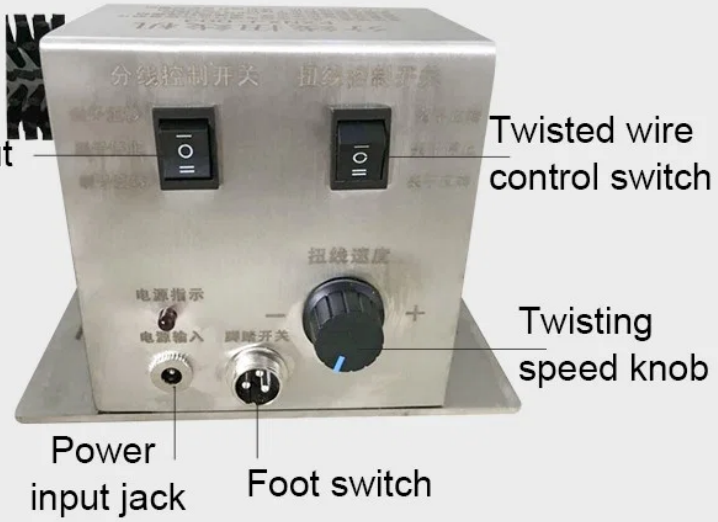

Elastic clamping, no need to adjust when the wire diameter is different.
